

## Fiscal Year 2018 Franklin County Sheriff's Department

### Sheriff's Funding Sources

### The Sheriff's 5 Percent

The Sheriff is compensated at a rate of 5 percent of total township contracts if that contract is for police services at a rate of forty hours per week or more. The Sheriff is compensated for 5 percent of all invoices generated for contracted traffic control or wide load services, since those contracts are not based on a total dollar amount but on each job. In the past, the Sheriff has asked for less than the 5 percent total contract threshold for compensation under patrol contacts.
